

ASSIGNMENT 1

Choose a specific scientific biological theme. The theme should be narrow enough. For example, ecology, biochemistry, dogs, lichens, etc. will not work. Find 10 scientific journal articles on this theme. Search can be performed by <https://scholar.google.com/> or other databases.

Please create Word document with reference list of these journal articles. Reference list must be prepared with standards used by journal "Biodiversity and conservation" (https://www.springer.com/life+sciences/ecology/journal/10531?detailsPage=pltdi_1902449).

Please format Word document without empty paragraphs by using following paragraph formatting: hanging, spacing "before" and "after", and "Keep lines together". Where necessary, use an indistinguishable space.

Please send document to didzis.tjarve@lu.lv.
